Welcome

The Society of Vascular and Interventional Neurology (SVIN) welcomes you to the 12th Annual Meeting in Atlanta, Georgia, November 20-23rd, 2019! We have an outstanding program again this year. The theme of this year’s meeting – “Taking a Deep Dive on Stroke” continues our focus on multidisciplinary participation from physicians, nurses, administrators, industry partners, and scientists, building on the success of previous Annual Meetings.

We will kick off the meeting on Day 1 with the Stroke Center Workshop (chaired by Jawad Kirmani, MD, FSVIN). These lectures and workshops will bring attendees the perspective of a diverse group of thought leaders on the nuts and bolts of how top stroke centers are developed and maintained from working with EMS, to delivering acute hospital care, and performing cutting edge research. The fellows course, which is generously supported by our industry partners, will occur on Day 4 and provide a unique opportunity for senior faculty to interact and teach trainees.

The Program Committee has assembled a diverse and international faculty with leaders in stroke from multiple continents representing Neurointerventional surgery, vascular neurology, neurosurgery, and radiology. As the meeting continues to grow in size and scope, we continue to expand on the parallel track format with a nursing track chaired by Anne Alexandrov, PhD, RN, AGACNP-BC, CCRN, NVRN-BC, ANVP-BC, FAAN and Jennifer Patterson, MSN, ACNP-BC, CCRN, FHM and also a vascular neurology track co-chaired by Amrou Sarraj, MD and Georgios Tsivgoulis, MD, PhD, MSc. In addition, we have also created joint Vascular and Interventional sessions meant to bring all participants together for robust discussions and interactions that corresponds to the multidisciplinary practice of vascular neurology and neurointervention.

Additional meeting highlights include a new session focused on “Neurovascular Disease in the Next Century” where participants will learn about new therapies and techniques which are poised to reshape the landscape of our field. We are also extremely fortunate this year to have internationally recognized Cross-Cultural Studies lecturer, author, and consultant Sondra Thiederman, PhD, who will give a keynote address on Friday, November 22nd. We continue to offer multiple events throughout the meeting for participants to network with colleagues and relax with family and friends, including our Women in Vascular and Interventional Neurology (WIN) Reception, Members in Training Reception, and new to the Annual Meeting this year, is the closing reception. This marquee event will be held on Friday night at the Georgia Aquarium. The floor to ceiling views of the unfathomably immense 6.3-million-gallon aquarium should provide one of the most unique environments to catch up with friends, old and new, and view the deep underwater world. Please mark your calendars so you do not miss out on this exciting and one-of-a-kind event.

The Abstract Committee, under the leadership of Alicia Castonguay, PhD, FSVIN, continues working to choose the best scientific abstracts from an ever increasing number of submissions. The most outstanding scientific content of the meeting will be highlighted in two platform presentations in the Salon Ballroom. Another new element to the meeting this year will be e-Poster presentations. The top posters will be selected for e-presentation and each e-poster presenter will be paired with a senior faculty who will moderate the discussion with meeting attendees.

I would like to thank our Annual Meeting Committee, Stroke Center Workshop Chair, Nursing and Vascular Track Chairs, Abstract Committee, Fundraising Committee, SVIN’s Executive Committee and Board of Directors, as well as everyone who has generously donated their time, effort, and knowledge to putting together the best possible agenda for this year’s meeting.

We wish to acknowledge and thank our gracious meeting exhibitors and sponsors for their continued participation in the SVIN Annual Meeting and the society. Be sure to visit the exhibitor area and Top Supporter suites.

I look forward to a fantastic meeting as we dive deep on stroke in Atlanta!

Lucas Elijovich, MD, FAHA
Chair, 12th Annual SVIN Meeting

SVIN 12TH ANNUAL MEETING PROGRAM DESCRIPTION

This year’s Annual Meeting continues to reflect the diversity, innovation, and creativity of our rapidly growing membership and our international partners. We look forward to an exciting meeting, which aims to address some of the most controversial issues confronting our field today. We have an excellent program this year with a new format that builds on the previous success of the Annual Meeting and Stroke Center Workshop.

On our first day, Dr. Jawad Kirmani will chair our Stroke Center Day focusing on stroke systems of care and hospital infrastructure. National leaders in the field of stroke will share essential lessons learned on a broad range of topics that drive quality stroke center operations. Topics will include new protocols and technologies for organizing pre-hospital care, successful practices for optimizing your ED and interventional suite, stroke center certification insights from the pros, harnessing the power of your EMR, optimizing stroke center finances, emerging artificial intelligence-based technologies, clinical research infrastructure, and many more. This programming is intended to bring together hospital administrators, EMS providers, physicians, nurses, coordinators, technologists, and other stroke champions from primary and comprehensive stroke centers. Ample time for discussions and questions will assure a robust exchange of information about world-class stroke practice.

The remainder of the meeting includes new tracks geared towards Advanced Practice Providers and Vascular Neurologists and Neurohospitalists (Day 2-3), as well as a half day Fellows Course (Day 4). The new format allows us to capture the latest insights and developments from both U.S. and international thought leaders in the Interventional, Nursing, and Vascular Neurology fields.

LEARNING OBJECTIVES

Upon completion of this educational activity, participants should be able to:

- Implement strategies to best grow your stroke referral network
- Review prehospital best-practice protocols and communication technologies to facilitate patient triage and treatment
- Streamline operations in the endovascular suite and optimize billing for the interventionalist
- Review benefits of recent FDA-approved artificial intelligence-based technologies for your center
- Determine how you can use your EMR to automate the process of stroke data collection
- Upgrade ED clinical pathways to improve accuracy of stroke diagnosis and time to treatment
- Review strategies to maximize hospital throughput
- Describe how to make a multifaceted finance reporting tool for your stroke center
- Improve documentation and coding procedures to drive hospital DRG payments, STAR ratings and HCAHPS scores
- Identify key drivers to successful stroke accreditation
- Implement best-practices guidelines for a robust clinical research program
- Integrate learning on stroke systems of care, pre-hospital care, and hospital infrastructure
- Improve processes on stroke operations from the ED to angiography suite
- Strengthen the ability to build a comprehensive stroke program
- Optimize technical performance of stroke, aneurysm, AVM and ICAD neurointerventions
- Relate the future of Interventional Neurology and the International barriers to Stroke Treatment
- Discuss key elements of a workup to determine pathogenic mechanism for patients with acute stroke
- Describe evidence-based treatment approaches for structural hemorrhages, intraparenchymal hemorrhage and acute ischemic stroke
- Identify expanded roles and scholarship opportunities to increase advanced practice provider influence

TARGET AUDIENCE

This meeting is intended for hospital administrators, critical care physicians, industry leaders, EMS leaders, ICU leaders, critical care physicians, interventional lab leaders, neurointerventionists, interventional neurologists, interventional neuroradiologists, endovascular neurosurgeons, vascular neurologists, neurointensivists, neurosurgeons, nurses, physician assistants, and other related neurological or endovascular practitioners.

HOW TO CLAIM CREDIT FOR THE SVIN 2019 ANNUAL MEETING

Claim your credit as easy as 1-2-3:
1. Access the SVIN 2019 Annual Meeting Evaluation by using the following link: https://akhcme.com/akhcme/pages/svin
2. Complete the evaluation for sessions attended.
3. After you hit submit, an electronic copy will be emailed to you for your records.

Earn up to 21.75 hours of CME/CE credit. ABPN Self-Assessment (SACME) credits will also be provided.

Please see page 6 for complete CME/CE information.

EXHIBIT AND REGISTRATION DESK HOURS

Registration/Help Desk Hours | Foyer
Tuesday, November 19 ............... 6:00 pm – 8:00 pm
Wednesday, November 20 .......... 7:00 am – 5:15 pm
Thursday, November 21 .......... 6:30 am – 6:15 pm
Friday, November 22 ............... 6:30 am – 5:30 pm
Saturday, November 23 .......... 6:30 am – 12:30 pm

Exhibit Hall Hours | Galleria
Wednesday, November 20 .......... 12:00 pm – 5:00 pm
Thursday, November 21 .......... 6:45 am – 5:00 pm
Friday, November 22 ............... 6:45 am – 5:00 pm
Saturday, November 23 .......... 6:45 am – 11:15 am
WIFI/APP INFORMATION

MOBILE MEETING APP INSTRUCTIONS WITH QR CODE (USE THIS TO PARTICIPATE WITH THE AUDIENCE RESPONSE SYSTEM)

Navigate the event like a pro with the SVIN 2019 Annual Meeting mobile app, powered by Core-apps.com

With the SVIN 2019 Annual Meeting mobile app, you can:
- Stay organized with up-to-the-minute Speaker, Exhibitor, and Event information
- View e-Posters
- Receive important real-time communications from SVIN
- Build a personalized schedule and bookmark exhibitors
- Take notes and download event handouts and presentations
- Find attendees and connect with your colleagues through Friends
- Stay in-the-know and join in on social media with #SVIN2019
- Share your event photos and experiences with the Photo Gallery
- And much, much more!

DOWNLOADING THE APP IS EASY!
SEARCH: The App Store or Google Play for SVIN Meetings

WIFI INSTRUCTIONS
1. Check for any available wireless signals.
2. Connect to SSID @HILTON-MEETING
3. Launch a web browser.
4. When prompted, enter the password SVIN2019

The conference welcome page or hotel main page will display and you can now browse the internet.

If you are roaming throughout the hotel, your computer will sometimes disconnect and you will need to re-associate with another wireless access point. VPN’s are not meant to stay connected all the time for security reasons and you may be required to re-establish your VPN connectivity when your current session expires. If you encounter any technical difficulties, please call 404-221-6371.

Criteria for Success
Statements of credit will be awarded based on the participant’s attendance and submission of the activity evaluation form. A statement of credit will be available upon completion of an online evaluation/claimed credit form at https://akhcme.com/akhcme/pages/svin. You must participate in the entire activity to receive credit. If you have questions about this CME/CE activity, please contact AKH Inc. at Btiginoni@akhcme.com.

CME/CE Credit provided by AKH Inc., Advancing Knowledge in Healthcare

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACME) through the joint providership of AKH Inc., Advancing Knowledge in Healthcare and The Society of Vascular and Interventional Neurology (SVIN). AKH Inc., Advancing Knowledge in Healthcare is accredited by the ACCME to provide continuing medical education for physicians.

AKH Inc., Advancing Knowledge in Healthcare designates this live activity for a maximum of 21.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Exhibits.....................................................................................................................Galleria**

**Lunch..........................................................................................................................Galleria**
1:20 pm – 1:30 pm  MT2020 Update, Dileep Yavagal, MD, FSVIN, FAHA .................................. Salon Ballroom

1:30 pm – 2:15 pm  Next Generation Industry Roundtable (Non-CME)................................. Salon Ballroom
Moderators: Thanh Nguyen, MD, FSVIN and Jawad Kirmani, MD, FSVIN

2:15 pm – 3:30 pm  Critical Topics in Stroke Center Development................................. Salon Ballroom
Moderators: Gustavo Jose Rodriguez, MD, PhD, FANA, Leonard Dimitri DaSilva, MD, MBA, and David Liebeskind, MD, FAHA, FAAN, FSVIN

2:15 pm – 2:25 pm  Clinical Research - Leveraging Your Telestroke Network,
Kiva Schindler, RN, CCRC

2:25 pm – 2:35 pm  Clinical Research - Successfully Navigating Regulatory Agencies,
Amanda Nolte, CCRP

2:35 pm – 2:55 pm  Stroke Center Certification Alphabet Soup: JCAHO, DNV, ABC,
Martin Gizzi, MD, PhD

2:55 pm – 3:15 pm  Teleneurology - Remote IV TPA Care and TeleRounding Services,
Tzu-Ching (Teddy) Wu, MD

3:15 pm – 3:30 pm  Q&A

3:30 pm – 5:00 pm  BSES Course (registration required) ........................................... Grand Ballroom A
This live course covers basic anatomy, statistics, types of strokes, risk factors, signs and symptoms, detection scales, treatment options, and methods for improving stroke outcomes. This course is appropriate for physicians, nurses, emergency medical professionals, first responders, healthcare workers, hospital personnel and the general public. Upon completion of the course, you will receive 1.5 CME credits.

3:30 pm – 5:30 pm  ASES Course (registration required) ........................................... Grand Ballroom D
This live course covers types of strokes, prehospital triage, stroke detection scales, warning signs and symptoms, treatment options, stroke severity scales, and bypass and transfer protocols. This course is appropriate for EMS, first responders, nurses, paramedics, police officers, fire fighters, and physicians. Upon completion of the course, you will receive 2.5 CME credits.

5:30 pm – 6:30 pm  Welcome Reception................................................................. Crystal Ballroom

6:30 pm – 7:30 pm  Science of Clot Workshop (advance registration required) ............. Room 213
Science of Clot Workshop – an interactive workshop analyzing the clots that cause large vessel occlusions from an engineering perspective. Why are some clots easier to remove? What happens to an occlusion over time? Does the nature of clot change during the course of endovascular therapy? Topics and hands-on exhibits will include clot composition and characterization, clot properties and behavior, occlusion dynamics, and clot-device interactions.

Content builds upon what was covered in last year’s workshops. The workshop will be presented by the CERENOVS Neuravi Thromboembolic Initiative (NTI) based on its research as well as findings from collaborative research projects with clinical and scientific institutions with the goal of advancing stroke therapy

6:30 pm – 9:00 pm  Board of Directors Meeting...................................................... Room 204 – 205

Thursday, November 21st

6:30 am – 6:15 pm  Registration / Help Desk...................................................... Salon Foyer

6:45 am – 8:00 am  Breakfast with Exhibitors..................................................... Galleria

6:45 am – 8:00 am  International Breakfast Corner........................................... Room 204-205
PROGRAM

6:45 am – 5:50 pm
Exhibits ...................................................................................................................... Galleria

8:00 am – 5:00 pm
Stryker Technology Suite ................................................................................................ Room 212

8:00 am – 9:30 am
Welcome/Stroke Debates ........................................................................... Salon Ballroom
Moderators: Jeffrey Saver, MD and Sandra Narayanan, MD, FAHA, FANA, FSVIN

8:00 am – 8:15 am
Welcome / Introduction to the Meeting App, Lucas Elijovich, MD, FAHA

8:16 am – 8:24 am
Who Should Perform Thrombectomy? - Come One Come All,
Nick Hopkins, MD, FACS

8:25 am – 8:34 am
Who Should Perform Thrombectomy? - Only Neurointerventionalists,
Tudor Jovin, MD, FSVIN

8:35 am – 8:44 am
Who Should Triage LVO? - LVO Should Be Triaged by Neurointerventionalists,
Mahesh Jayaraman, MD, FACR

8:45 am – 8:54 am
Who Should Triage LVO? - LVO Should Be Triaged by Stroke Neurologists,
Andrei Alexandrov, MD, NVS

8:55 am – 9:04 am
Large Core Infarct - Treat with Mechanical Thrombectomy, Amrou Sarraj, MD

9:05 am – 9:14 am
Large Core Infarct - Do No Harm: Don’t Treat with Mechanical Thrombectomy,
Shazam Hussain, MD, FRCP(C)

9:15 am – 9:30 am
Q&A

9:30 am – 10:00 am
Business Meeting, Presidential Address and Award Presentations,
Italo Linfante, MD, FAHA, FSVIN ............................................................... Salon Ballroom

10:00 am – 10:15 am
Future of the Interventionalism Era of Neurology, a Hair Between Surrealism and Magical Realism, Call for Code of Ethics; Developing World Overview, Ossama Mansour, MD, PhD, FINR, FSVIN, FESO ........ Salon Ballroom

10:15 am – 11:00 am
Coffee Break with Exhibitors & E-Poster Presentations .................. Galleria
Moderators: Italo Linfante, MD, FAHA, FSVIN, Amer Malik, MD, MBA, FAHA, FSVIN, Rakesh Khatri, MD, FSVIN, and Diogo C. Haussen, MD, FSVIN

11:00 am – 12:00 pm
Platform Session I (full abstract and authors listing available in the mobile app) ................................................................. Grand Salon
Moderator: Amrou Sarraj, MD

11:00 am – 11:08 am
Mobile Stroke Unit CTA and Direct Notification of Interventional Team Shortens Door-to-Puncture-Time by One Hour, Alexandra L Czap, MD

11:09 am – 11:16 am
Stroke and LVO Detection Using AI from Facial Analysis: A Cross-Center Study,
Marc Ribó, MD, PhD

11:17 am – 11:24 am
Machine Learning Identification of Large Vessel Occlusion (LVO) on Non-contrast Computed Tomography (NCCT), Marc Ribó, MD, PhD

11:25 am – 11:32 am
Impact of Time and ASPECTS on Clinical Core Mismatch in Large Vessel Occlusion Strokes, Shashvat M Desai, MD

11:33 am – 11:40 am
Patient Selection for Thrombectomy with CT Versus CT Perfusion in the Early Time-Window: A Meta-analysis, Ashutosh Jadhav, MD, PhD, FSVIN, FAHA

11:41 am – 11:48 am
First Pass Effect in the Anterior and Posterior Circulation: Insights from the TREVO Registry, Ashutosh Jadhav, MD, PhD, FSVIN, FAHA

11:49 am – 12:00 pm
Q&A

12:00 pm – 2:00 pm
Lunch ........................................................................................................ Salon Foyer / Galleria
12:15 pm – 12:55 pm  Industry Lunch Symposium with MicroVention (Non-CME) .................. Salon Ballroom

Best practices with the WEB® Aneurysm Embolization System, Bharathi Jagadeesan, MD, Associate Professor, Department of Radiology, Neurology and Neurosurgery; Co-director, Earl Grande Stem Cell Laboratory; Medical Director, Center for Magnetic Resonance Research, University of Minnesota

SOFIA Flow Plus Aspiration Catheter First-Line Thrombectomy Approach, Gabor Toth, MD, FAHA, Associate Professor, CCLCM; Director, Neurointerventional Fellowship program; Lead, Endovascular Operations, Cerebrovascular Center, Cleveland Clinic

1:00 pm – 1:40 pm  Industry Lunch Symposium with Stryker (Non-CME) .......................... Salon Ballroom

Defining & Achieving Clinical Success: An Evolution of Thrombectomy, Raul Nogueira, MD, FSVIN and David Liebeskind, MD, FAHA, FAAN, FSVIN

2:00 pm – 2:30 pm  Advanced Practice Providers on the Frontline of Diagnosis & Treatment: Telemedicine, Emergency Department, Mobile Stroke Unit, Stroke & Neurosurgery Clinic.................. Grand Ballroom D

Wendy Dusenbury, DNP, FNP-BC, AGACNP-BC, ANVP-BC, Jennifer Patterson, MSN, ACNP-BC, CCRN, FHM, and Natalie Hall, MSN, FNP-C, ANVP-BC

2:00 pm – 3:30 pm  Vascular Neurology ....................................................... Salon Ballroom

Moderators: Katherine Nearing, MD, Nirav Bhatt, MD, and Ji Chong, MD

2:00 pm – 2:12 pm  ESUS: Current Evidence and Future Research, Hooman Kamel, MD
2:13 pm – 2:25 pm  PFO Closure: Current Evidence and Future Research, David Thaler, MD, PhD
2:26 pm – 2:38 pm  All PFOs Are Not Created Equal: Anatomic and Structural Considerations, Benjamin Waller, MD
2:39 pm – 2:51 pm  LAA Closure After Stroke: WATCHMEN, Jeffrey Saver, MD
2:52 pm – 3:04 pm  Restarting Anticoagulation After Stroke: Timing, Steven Warach, MD, PhD
3:05 pm – 3:17 pm  IV Glyburide for Brain Swelling in Large Hemispheric Infarcts, Maarten Lansberg, MD, PhD
3:18 pm – 3:30 pm  Q&A

2:00 pm – 3:30 pm  Pediatric Stroke and Neurointerventional .................................. Grand Ballroom A

Moderators: Santiago Ortega-Gutierrez, MD, MSc, FAHA, FSVIN and Lee Birnbaum, MD, MS

2:00 pm – 2:09 pm  The Perspective of a Pediatric Stroke Neurologist, Christine Fox, MD, MAS
2:10 pm – 2:19 pm  The Perspective of a Neurointerventional Surgeon: Technical Aspects and More, Ashutosh Jadhav, MD, PhD, FSVIN, FAHA
2:20 pm – 2:29 pm  Sickle Cell Disease, Stroke Risk, and Novel Preventative Strategies, Michael DeBaun, MD, MPH
2:30 pm – 2:39 pm  Moya Moya Disease: Pretherapeutic Evaluation and Surgical Decision Making, Paul Klimo Jr, MD, MPH
2:40 pm – 2:49 pm  Indications for Intra-Arterial Chemotherapy for Retinoblastoma - When to Do It, Dan Gombos, MD, FACS
2:50 pm – 2:59 pm  Intra-Arterial Chemotherapy for Retinoblastoma - How to Do It, Athos Patsalides, MD, MPH
3:00 pm – 3:09 pm  Sclerotherapy of Venous and Lymphatic Malformations, Neeraj Chaudhary, MD, MRCS, FRCR, FAHA, FEBNI
3:10 pm – 3:19 pm  Live Case - Sclerotherapy of Orbital Macrocystic LM in a Child, Rafael Ortiz, MD
3:20 pm – 3:30 pm  Q&A
3:30 pm – 4:00 pm  Coffee Break with Exhibitors & E-Poster Presentations............................................. Galleria
Moderators: Dileep Yavagal, MD, FSVIN, FAHA, Ameer E. Hassan, DO, FAHA, FSVIN, Ashutosh Jadhav, MD, PHD, FSVIN, FAHA, and Ossama Mansour, MD, PhD, FINR, FSVIN, FESO

4:00 pm – 5:50 pm  Endovascular + Vascular Neurology Joint Session 1 ................................. Salon Ballroom
(Controversies in Cervical Atherosclerotic Disease)
Moderators: Raul Nogueira, MD, FSVIN and Violiza Inoa, MD

4:00 pm – 4:07 pm  Trans Carotid Artery Revascularization - What is the Evidence?
Charles Matouk, MD

4:08 pm – 4:15 pm  Right of First Refusal: CAS Over CEA, Brian Jankowitz, MD

4:16 pm – 4:23 pm  Vertebral Origin Disease - How and When to Treat, Randall Edgell, MD

4:24 pm – 4:30 pm  Q&A

4:31 pm – 4:38 pm  The Best Way to Image Core Infarct: CT and CTP, Jeremy Heit, MD

4:39 pm – 4:46 pm  The Best Way to Image Core Infarct: MRI, Maarten Lansberg, MD, PhD

4:47 pm – 4:54 pm  Distal Occlusion Thrombectomy: When and How I do It, Thabele (Bay) Leslie-Mazwi, MD

4:55 pm – 5:02 pm  Why Not to Treat Low NIHSS LVO, Matthew Tenser, MD, ScM

4:30 pm – 5:50 pm  (Acute Ischemic Stroke Beyond the Guidelines)
Moderators: Thanh Nguyen, MD, FSVIN, Gary Spiegel, MDCM, and Thomas Wolfe, MD

5:03 pm – 5:09 pm  Current Evidence on Blood Pressure Management Post MT, Eva Mistry, MBBS

5:10 pm – 5:20 pm  Cases and Debate, Johanna Fifi, MD, FSVIN, Anne Alexandrov, PhD, AGACNP-BC, ANVP-BC, FAAN, and Thomas Kent, MD

5:21 pm – 5:26 pm  Q&A

5:27 pm – 5:33 pm  Distal Thrombectomy Case, Diogo C. Haussen, MD, FSVIN

5:34 pm – 5:41 pm  Complex Carotid Stenting/Tandem Occlusion, Ansaar Rai, MD

5:42 pm – 5:50 pm  Q&A

6:00 pm – 7:15 pm  Women in Vascular and Interventional Neurology (WIN) Reception
(with support of Genentech).......................................................... Room 203

6:00 pm – 7:15 pm  Members in Training Reception (All Welcome)................................. Room 204-206

7:15 pm – 8:15 pm  Science of Clot Workshop (advance registration required) ......................... Room 213
Science of Clot Workshop – an interactive workshop analyzing the clots that cause large vessel occlusions from an engineering perspective. Why are some clots easier to remove? What happens to an occlusion over time? Does the nature of clot change during the course of endovascular therapy? Topics and hands-on exhibits will include clot composition and characterization, clot properties and behavior, occlusion dynamics, and clot-device interactions.

Content builds upon what was covered in last year’s workshops. The workshop will be presented by the CERENOVUS Neuravi Thromboembolic Initiative (NTI) based on its research as well as findings from collaborative research projects with clinical and scientific institutions with the goal of advancing stroke therapy.
Friday, November 22nd

6:30 am – 5:30 pm  Registration / Help Desk ........................................................................................................ Salon Foyer  
6:45 am – 8:00 am  Breakfast with Exhibitors ........................................................................................................... Galleria  
6:45 am – 8:00 am  Breakfast Workshop – How to Get Published in a Scientific Journal (advance registration required) ........................................................................................................ Room 204-205  
6:45 am – 5:00 pm  Exhibits ........................................................................................................................................... Galleria  
7:00 am – 5:00 pm  Penumbra Technology Suite ........................................................................................................ Room 211  
8:00 am – 5:00 pm  Medtronic Technology Suite ........................................................................................................ Room 214

8:00 am – 9:30 am  Vascular Neurology .............................................................................................................. Salon Ballroom  
Moderators: May Kim-Tenser, MD, FAHA, David Liebeskind, MD, FAHA, FAAN, FSVIN, and Michael Frankel, MD

8:00 am – 8:12 am  Adjunctive Thrombolysis to IV tPA, Bruce Campbell, MBBS, PhD  
8:13 am – 8:25 am  IV Thrombolysis for Patients on Newer Anticoagulants – DOACs, Georgios Tsivgoulis, MD, PhD, MSc  
8:26 am – 8:38 am  Perfusion Imaging-Based Thrombolysis in Extended Time Window, Greg Albers, MD  
8:39 am – 8:51 am  Choice of Antiplatelet for Secondary Stroke Prevention, Haris Kamal, MD  
8:52 am – 9:04 am  Surgical Management of ICH - Results of MISTIE III and CLEAR Trials, Wendy Ziai, MD, MPH

9:05 am – 9:17 am  Non-Surgical Treatment of Acute ICH, Magdy Selim, MD, PhD  
9:18 am – 9:30 am  Q&A

8:00 am – 9:45 am  BAVM/F - Multidisciplinary Management of High-Grade Brain AVMs ................................................................. Grand Ballroom A  
Moderators: Johanna Fifi, MD, FSVIN and Ossama Mansour, MD, PhD, FINR, FSVIN, FESO

8:00 am – 8:19 am  Endovascular Embolization of High Spetzler Martin Grade AVMs – When and How? Michel Piotin, MD, PhD  
8:20 am – 8:39 am  Surgical Treatment of High Grade Spetzler Martin AVMs, David Langer, MD  
8:40 am – 8:59 am  Radiosurgery as a Stand-Alone Treatment for High Spetzler Martin Grade AVMs, Edward A. Monaco III, MD, PhD  
9:00 am – 9:19 am  A Look into the Future: Somatic Activating KRAS Mutations in Brain AVMs, Ivan Radovanovic, MD, PhD  
9:20 am – 9:27 am  AVM Live Case 1: Ruptured Basal Ganglia AVM with Deep Venous Drainage, Rafael Ortiz, MD  
9:28 am – 9:35 am  AVM Live Case 2: AVM Curative Embo, Raul Nogueira, MD, FSVIN  
9:36 am – 9:45 am  Q&A
9:45 am – 10:30 am
Keynote Speaker ................................................................. Salon Ballroom

9:45 am – 9:50 am
Introduction, Robin Novakovic-White, MD, FSVIN

9:51 am – 10:25 am
The Human Brain: Miracle or Mischief Maker, Sondra Thiederman, PhD

10:26 am – 10:30 am
Q&A

10:30 am – 11:00 am
Coffee Break with Exhibitors .................................................. Galleria

11:00 am – 12:00 pm
Platform Session II (full abstract and authors listing available in the mobile app) .......................................................... Salon Ballroom

Moderator: Diogo C. Haussen, MD, FSVIN

11:00 am – 11:08 am
Acute Subdural Hematomas Secondary to Aneurysmal Subarachnoid Hemorrhage Confer Poor Prognosis - a National Perspective, Gurmeen Kaur, MD

11:09 am – 11:16 am
Surpass™ Flow Diverter Trial Treating Large OR Giant Wide Neck Aneurysms: Posterior Communicating Artery Aneurysm, Peter Kan, MD, MPH, FRCSC, FAANS

11:17 am – 11:24 am
Cyclical Aspiration has an Improved Safety Profile Compared to Continuous Uniform Aspiration: In-Vivo Randomized Study, Ram Kadivel, PhD

11:25 am – 11:32 am
The Clinical Impact of Elloquent Cortex-Tissue Reperfusion Beyond the Traditional TICI Scoring After Thrombectomy, Radoslav Raychev, MD

11:33 am – 11:40 am
E-ASPECTS CT Ischemic Volume Performs Similarly to CTP in the Prediction of Post-Reperfusion Infarct Volume, Mehdi Bouslama, MD

11:41 am – 11:48 am
Mechanical Thrombectomy With Penumbra 3D Revascularization Device for Acute Stroke: Interim Analysis of COMPLETE Registry, Johanna Fifi, MD, FSVIN

11:49 am – 12:00 pm
Q&A

12:00 pm – 2:00 pm
Lunch .................................................................................... Grand Salon Foyer / Galleria

12:15 pm – 12:55 pm
Industry Lunch Symposium with Penumbra (Non-CME) .................... Salon Ballroom

LVO and Beyond with Large Bore Catheters,
Nabeel Herial MHD, Jefferson University Hospital, PA

Treatment of Acute Intracranial Aneurysms with Next Generation Coil Technology,
Ashish Nanda, SSM St. Clare Hospital, MO

1:00 pm – 1:40 pm
Industry Lunch Symposium with Medtronic (Non-CME) .................. Salon Ballroom

Beating Stroke from Every Angle: Triage, Time, and Procedural Efficiency,
Ameer E. Hassan, DO, FAHA, FSVIN and Marc Ribó, MD

2:00 pm – 2:29 pm
Brain Aneurysms (Basic science, Training, and Diagnostic Modalities) ................................................................. Salon Ballroom

Moderators: Maxim Mokin, MD, PhD and Wolfgang Leesch, MD

2:00 pm – 2:07 pm
High Resolution Vessel Wall Imaging for Aneurysm Rupture Prediction,
Edgar Samaniego, MD, MS

2:08 pm – 2:15 pm
Optimizing Flow Diversion Using Basic Science Research, Matthew Gounis, PhD

2:16 pm – 2:23 pm
Virtual and 3D Model Training – Lessons from the WEB-IT Trial,
Daniel Hoit, MD, MPH, FAANS

2:24 pm – 2:29 pm
Q&A

2:30 pm – 3:30 pm
Brain Aneurysms Continued (Treatment) ........................................ Salon Ballroom

Moderators: Maxim Mokin, MD, PhD and Wolfgang Leesch, MD
2:30 pm – 2:37 pm  Unruptured Aneurysms – Patient Selection, Indications for Treatment and Primum Non Nocere, Justin F. Fraser, MD
2:47 pm – 2:55 pm  Wide Neck Aneurysms – Current Challenges, Limitations, and Experience with Intracacular Devices, Lucas Elijovich, MD, FAHA
2:56 pm – 3:03 pm  Beyond Stents: Novel Neck Bridging Devices for Wide Neck Aneurysms, Radoslav Raychev, MD
3:04 pm – 3:11 pm  Flow Diversion in Ruptured Aneurysms and Distal Aneurysms: When and How I do It, Mario Martinez-Galdamez, MD
3:12 pm – 3:18 pm  Live Case 1 - WEB WNBA Embolization, Ansaar Rai, MD
3:19 pm – 3:25 pm  Live Case 2 - Dual Micro Catheter Aneurysm Coiling, Rafael Ortiz, MD
3:26 pm – 3:30 pm  Q&A

3:30 pm – 4:00 pm  Coffee Break with Exhibitors & E-Poster Presentations............................................. Galleria

Moderators: Raul Nogueira, MD, FSVIN, David Liebeskind, MD, FAHA, FAAN, FSVIN, Johanna Fifi, MD, FSVIN, and Dorothea Altschul, MD, FAHA

4:00 pm – 5:00 pm  Neurointerventional Surgery in the Next Century ............................................. Salon Ballroom

Moderators: Dileep Yavagal, MD, FSVIN, FAHA, Peter Kan, MD, and Ameer E. Hassan, DO, FAHA, FSVIN

4:00 pm – 4:09 pm  Robotics in Neurointervention, Aquilla Turk, DO
4:10 pm – 4:19 pm  MMA Embolization for Subdural Hematoma, Adam Arthur, MD, MPH, FAANS, FACS
4:20 pm – 4:29 pm  Artificial Intelligence in Neurovascular Medicine - The Rise of the Machines, Chris Mansi, MD, MPH
4:30 pm – 4:55 pm  History of Neurointerventional Surgery and Looking Forward to the Next 100 years, Alejandro Berenstein, MD
4:56 pm – 5:00 pm  Q&A

6:00 pm – 8:00 pm  Networking Reception (included with meeting registration).................. Georgia Aquarium

Saturday, November 23rd

6:30 am – 12:30 pm  Registration / Help Desk.......................................................... Salon Foyer
6:45 am – 8:00 am  Breakfast with Exhibitors................................................................. Galleria
6:45 am – 11:15 am  Exhibits............................................................................................. Galleria
8:00 am – 9:30 am  Clinical Trials Update - Stroke and Neurointerventional.......................... Salon Ballroom

Moderators: Viktor Szeder, MD, PhD and Radoslav Raychev, MD

8:00 am – 8:07 am  c3Fit, Kenneth Gaines, MD, MBA
8:08 am – 8:15 am  BEST MSU, James Grotta, MD
8:16 am – 8:23 am  TRUST, Andrei Alexandrov, MD, NVS
8:24 am – 8:31 am  Fastest, Joseph Broderick, MD
8:32 am – 8:39 am  How to Lead Your Own Successful Hospital Quality Improvement Program: Lessons Learned from the Stroke Thrombectomy Optimization Mentored Program (STOMP), David Likosky, MD, SFHM, FAAN, FAHA, FACP
8:40 am – 8:47 am  Impact 24 - Collateral Cerebral Blood Flow Augmentation for Acute Ischemic Stroke, Jeffrey Saver, MD
8:48 am – 8:55 am  Resilient, Raul Nogueira, MD, FSVIN and Francisco José Mont’Alverne, MD, PhD
8:56 am – 9:03 am  Select 2, Amrou Sarraj, MD
9:04 am – 9:11 am  Compass Final Results & Economic Analysis, Aquilla Turk, DO
9:12 am – 9:19 am  RACECAT Update, Marc Ribó, MD
9:20 am – 9:30 am  Q&A

9:30 am – 10:45 am  Endovascular + Vascular Neurology Joint Session 2 ....................... Salon Ballroom (Intracranial Atherosclerotic Disease)
Moderators: Guy Raphaeli, MD, Robin Novakovic-White, MD, FSVIN, and Nima Aghaebrahim, MD

9:30 am – 9:39 am  What I Learned from the Samprass Trial & How I Practice Today, David Fiorella, MD, PhD
9:40 am – 9:49 am  Modern Medical Management of ICAD and Interventional Treatment for Secondary Prevention, Jin Soo Lee, MD, PhD
9:50 am – 9:59 am  Microsurgical Bypass in 2019, Erez Nossek, MD
10:00 am – 10:09 am  Hyperacute ICAD - Endovascular Treatment Strategies: Scrape, Vacuum, Balloon or Stent? Marc Ribó, MD
10:10 am – 10:20 am  ICAD Live Case 1 - Label Case PTA / Stent Case, Rafael Ortiz, MD
10:21 am – 10:31 am  ICAD Live Case 2- Multiple Tia Angioplasty, Raul Nogueira, MD, FSVIN
10:32 am – 10:45 am  Q&A

10:45 am – 11:15 am  Coffee Break with Exhibitors & E-Poster Presentations ................................. Galleria
Moderators: Tudor Jovin, MD, FSVIN, Andrei Alexandrov, MD, NVS, Thanh Nguyen, MD, FSVIN, and Sandra Narayanan, MD, FAHA, FANA, FSVIN

11:15 am – 12:40 pm  Radial Angiography Mini Symposium .................................................... Salon Ballroom
Moderators: Alberto Maud, MD and Lucas Elijovich, MD, FAHA

11:15 am – 11:30 am  Why Radial Approach? Lessons Learned from Cardiology and Current Evidence in Neurointerventional Surgery, Dileep Yavagal, MD, FSVIN, FAHA
11:31 am – 11:46 am  Anatomy, Equipment, and Tips and Tricks for Diagnostic Radial Cerebral Angiography, Rakesh Khatri, MD, FSVIN
12:08 pm – 12:28 pm  Complications and Bail out Strategies for Transradial Neurointervention, Eytan Raz, MD, PhD
12:29 pm – 12:40 pm  Q&A

12:30 pm – 1:00 pm  Lunch for Fellows Course Attendees ......................................................... Galleria 1

Tudor Jovin, MD, FSVIN
Executive Director
Trish Shomion

SVIN would like to extend a special thank you to the following individuals for their contributions to the SVIN 2019 Meeting:

Chair:
Lucas Elijovich, MD, FAHA
Ameer E. Hassan, DO, FAHA, FSVIN
David Liebeskind, MD, FAHA, FAAN
Anne W Alexandrov, PhD, AGACNP-BC, CNS, CCRN, ANVP-BC
Audrey Arango, RN, BSN, NVRN-BC
Sharon Biby, NP-C
Lee Bimbaum, MD
Alicia Castonguay, PhD, FSVIN
Thomas Devlin, MD, PhD, FSVIN
Nicole Gonzales, MD
Ashutosh JadHAV, MD, PhD, FSVIN
Rakesh Khatri, MD, FSVIN
Jawad Kirmani, MD, FSVIN
Italo Linfante, MD, FSVIN, FAHA
Maxim Mokin, MD
Katherine Nearing, MD
Santiago Ortega-Gutierrez, MD, MSc, FAHA, FSVIN
Rafael Ortiz, MD
Radoslav Raychev, MD
Edgar Samaniego, MD, MS
Sunil Sheth, MD
Viktor Szeder, MD, PhD, MSc
Georgios Tsivgoulis, MD, PhD, MSc

2019 Fundraising Committee Members
Chair: Johanna Fifi, MD, FSVIN
Ameer E. Hassan, DO, FAHA, FSVIN
Thanh Nguyen, MD, FSVIN
Robert Novakovic-White, MD, FSVIN
Dileep Yavagal, MD, FSVIN, FAHA
Lucas Elijovich, MD, FAHA

2019 Abstract Committee Members
Chair: Alicia Castonguay, PhD, FSVIN
Ameer E. Hassan, DO, FAHA, FSVIN
Michael Abraham, MD, FAHA
Italo Linfante, MD, FAHA, FSVIN
Diogo Haussen, MD, FSVIN
Sonali Mehta, MD, FAHA
Thanh Nguyen, MD, FSVIN
Robert Novakovic-White, MD, FSVIN
Edgar Adres Samaniego, MD, MS
Syed F. Zaide, MD
Mohamed Teleb, MD

Congratulations to the following Society Awardees:

Neurointerventional Pioneering Award
Ossama Mansour, MD, PhD, FSVIN, FINR, FESO
In recognition of his outstanding contributions to training and mentoring of Interventional Neurologists

Neurologist Pioneering Award
Ralph Lewis Sacco, MD, MS, FAHA, FAAN
In recognition of his outstanding contributions to training and mentoring of Interventional Neurologists

Innovation Award
Vallabj Janardhan, MD, FSVIN, FAHA, FAAN
In recognition of his innovation in the field of Interventional Neurology

Distinguished Service Award
Ameer E. Hassan, DO, FAHA, FSVIN
In recognition of his substantial service to the Society of Vascular and Interventional Neurology

Pilot Research Grant Award
Ashutosh JadHAV, MD, PhD, FSVIN
Edgar Samaniego, MD, MS

FSVIN Award
Alicia Castonguay, PhD
Santiago Ortega-Gutierrez, MD, MSc, FAHA, FSVIN

Best Abstract
Radoslav Raychev, MD
“The clinical impact of eloquent cortex-tissue reperfusion beyond the traditional TICI scoring after thrombectomy”

Young Investigator Award
Shashvat Desai, MD

“Impact of Time and ASPECTS on Clinical Core Mismatch in Large Vessel Occlusion Strokes”

Congratulations to the following SVIN 2019 Trainee Travel Grant Awardees:
Feroze Afzal
Kunakorn Atchaneeyasakul
Alexandra L Czap
Jay Dolia
Nada Elsaid
Christine Hawkes
Chike Ilorah
Gurmeet Kaur
Ashish Kaul
Kaustubh Limaye
Alice Ma
Mohammad Helmy Hafez Mohammad
Ashkan Mowla
Muhammad Hafeezullah Niazi
Pratit D Patel
Sujan Reddy
Kalyan Chekravarthy Sajja
Hisham Salahuddin
Alejandro Santillan
Lila Sheikhi
Mithilesh Siddu
Daniel Vela-Duarte

Endorsements
The following organizations endorse the SVIN 12th Annual Meeting:

- AMERICAN SOCIETY OF NEUROMAGING
- ASSOCIATION OF NEUROVASCULAR CLINICIANS
- CALGARY STROKE PROGRAM (5T STROKE)
- EUROPEAN STROKE ORGANISATION
- STROKE SOCIETY OF AUSTRALASIA 2019
- 3RD TURKISH STROKE ACADEMY
- WORLD FEDERATION OF INTERVENTIONAL AND THERAPEUTIC NEURORADIOLOGY
- WORLD LIVE NEUROVASCULAR CONFERENCE
- WORLD STROKE ORGANIZATION
Balt USA | Booth 1
P: (949) 788-1443
E: customerservice@balt-usa.com
W: balt-usa.com

Balt USA LLC was established in 2017 as the US-based division of Balt Incorporated and is based in Irvine, California. Balt USA’s focus is on the commercialization of Balt products in the United States as well as continuing a tradition of physician inspired innovation through novel research and development.

Viz.ai | Booth 2
555 De Haro Street, Suite 400
San Francisco, CA 94107
P: (866) 849-4980
E: hello@viz.ai
W: www.viz.ai

Viz.ai’s mission is to increase access to lifesaving treatments, by fundamentally improving how healthcare is delivered in the world, through intelligent software that synchronizes healthcare.

CERENOVUS | Booth 3
33 Technology Drive
Irvine, CA 92618
E: ra-accus-cerenovusco@its.jnj.com
W: www.cerenovus.com

CERENOVUS, part of the Johnson & Johnson Medical Devices Companies, is a global leader in neurovascular care. Our commitment to changing the trajectory of stroke is inspired by our long heritage and dedication to helping physicians protect people from a lifetime of hardship. CERENOVUS offers a broad portfolio of devices used in the endovascular treatment of hemorrhagic and ischemic stroke.

Stryker | Booth 4
47900 Bayside Parkway
Fremont, CA 94538
E: NVCustomerService@stryker.com
W: www.stryker.com

Stryker is one of the world’s leading medical technology companies and, together with our customers, is driven to make healthcare better. We offer innovative products and services in Orthopedics, Medical and Surgical, and Neurotechnology and Spine that help improve patient and hospital outcomes.

Endophys Holdings, LLC | Booth 5
21 McCurley Drive Suite 1965
New Freedom, PA 17349
P: (469) 828-5119
E: support@endophys.com
W: www.endophys.com

Endophys Holdings has developed its unique Pressure Sensing Access System (PSAS) that drastically reduces delays and complexity in treating critical interventional patients. The Endophys PSAS allows interventional physicians vascular access and hi-fidelity inter-arterial pressures in real time, with one device, reducing potential loss of brain, myocardial or other vital tissue.

MicroVention, Inc. | Booth 6
35 Enterprise
Aliso Viejo, CA 92656
P: (800) 990-8368
E: cathy.demyanovich@microvention.com
W: www.microvention.com

MicroVention provides a complete 360-degree approach to developing neuroendovascular technologies with four main product groups: Aneurysm Therapy Solutions, Ischemic Stroke and Carotid Artery Disease Solutions, Neurovascular Malformation Solutions, and Access Products. Additionally, our extensive product lines in each category allow our customers to uniquely address the needs of their patients.

Patronus Neurology, LLC | Booth 7
5220 Jimmy Lee Smith Pkwy Suite 104-265
Hiram, GA 30141
P: (800) 784-3104
E: info@patronusneurology.com
W: www.patronusmedical.com

Patronus Neurology provides elite 24 x 7 x 365 comprehensive emergency teleneurology solutions to hospitals and stand-alone ERs for any neurological question in an emergency setting. Our industry-leading response times put patients in contact with vascular-trained neurologists - not a call center or staging clinician - in under two minutes.

Rapid Medical | Booth 8
1355 Shotgun Road
Sunrise, FL 33326
P: (954) 884-2120
E: info@rapid-medical.com
W: www.rapid-medical-us.com

Rapid Medical is developing game-changing devices for neurovascular treatments. Rapid Medical is the maker of FDA approved COMANECI, the first-ever controllable aneurysm neck-bridging device and TIGERTRIEVER, the first-ever controllable, fully visible stentriever that is designed to treat ischemic stroke patients. The TIGERTRIEVER is an investigational device in the US.
Baylor Scott & White Health | Booth 9
2401 S. 31st Street
Temple, TX 76508

West Valley, UT 84119
P: (888) 385-9016
E: Sales@scientiavascular.com
W: www.scientiavascular.com

Innovative access devices and therapies that are optimized to address the evolving needs of interventional specialists.

ANVC | Booth 11
5841 Cedar Lake Road Suite 204
Minneapolis, MN 55416
P: (952) 646-2031
E: info@anvc.org
W: www.anvc.org

The Association of Neurovascular Clinicians (ANVC) is a Magnet recognized organization of stroke professionals dedicated to improving quality and access to acute stroke care. The organization was formed to meet the needs of interdisciplinary health professionals engaged in the care of stroke patients, and is the only stroke-specific professional membership organization in the world.

Phenox Inc. | Booth 12
9842 Research Drive
Irvine, CA 92618
P: (844) 674-3669
E: cs@phenox.com
W: www.phenox.com/usa

Since its founding in 2005, Phenox has been dedicated to developing innovative, breakthrough and clinically proven technologies and solutions for the treatment of neurovascular diseases. Phenox’s products are used by endovascular specialists to treat ischemic and hemorrhagic stroke. More information about the company and its products can be found at www.phenox.com.

Penumbra, Inc. | Booth 13
One Penumbra Place
Alameda, CA 94502
P: (510) 748-3200
E: info@penumbrainc.com
W: www.penumbrainc.com

Penumbra, Inc., headquartered in Alameda, California (USA), is a global healthcare company focused on innovative therapies. Penumbra designs, develops, manufactures and markets medical devices and has a broad portfolio of products that addresses challenging medical conditions and significant clinical needs across its major markets, neuro and peripheral vascular.

RAPID | Booth 14
405 El Camino Real, Suite 601
Menlo Park, CA 94025
P: (650) 388-8767
E: info@rapid.ai
W: www.rapid.ai

RAPID is the worldwide leader in advanced imaging for stroke. Installed in over 1,300 hospitals, RAPID (automated CTP, MRI, CTA and ASPECTS), with enhanced AI framework, is the only clinically-validated stroke imaging platform — RAPID response time, RAPID results, with custom notifications, on any mobile device. Easy, fast, secure.

NAGLREITER™ MDDO | Booth 15
3451 Commerce Parkway
Miramar, FL 33025
P: (954) 507-3830
E: info@nmddo.com
W: nmddo.com

NAGLREITER™ serves the medical device industry with a talented staff of accomplished engineers and specialists. Clients can select among many service options ranging from offsite project support to full incubation of their company from concept through production at our facility. In addition to our workforce services, NAGLREITER™ also offers contract use of our equipment & ISO 13485 certified Quality Management System (QMS).

Nested Knowledge | Booth 16
1430 Avon Street North
Saint Paul, MN 55117
E: contact@nested-knowledge.com
W: nested-knowledge.com

Nested Knowledge is a data analytics company that converts thousands of studies into a user-friendly, customized report for patients and physicians. Nested Knowledge’s experts amass data through highly accurate machine-learning methods and then translate these data to provide a constantly-updated and comprehensive view of the data relevant to treatment decision-making.

Portola | Booth 17
270 E Grand Ave South
San Francisco, CA 95053
P: (650) 246-7000
E: contact@portola.com
W: portola.com

Portola is a global biotechnology company charting a new course in the treatment of serious blood-related disorders. Our dedication to unconventional exploration and discovery has yielded unique proprietary medicines that fundamentally shift how patients with thrombotic and other hematologic disorders are treated. By combining our expertise and passion with a persistent focus on the discovery and development of novel compounds, we strive to make a significant impact on the lives of patients around the world.

Medtronic | Booth 18
5290 California Ave
Irvine, CA 92617
P: (800) 633-8766
W: www.medtronic.com

As a global leader in medical technology, services and solutions, Medtronic improves the lives and health of millions of people each year. We use our deep clinical, therapeutic, and economic expertise to address the complex challenges faced by healthcare systems today. Let’s take healthcare Further, Together. Learn more at Medtronic.com.
Become a Member of SVIN Today!

The Society was created to achieve the highest level of care for patients through increased collaboration in scientific research and by educating young professionals and training young investigators. The Society also aims to provide opportunities to connect leaders in the field and provide a common ground for dialogue and creation of practice and safety standards. SVIN is committed to fostering scientific research in the field of cerebrovascular diseases and neurointerventional procedures through internal and external collaboration with other groups.

**SVIN Membership Benefits include:**

- Discounted SVIN Meeting Rates
- Access to Member Directory
- Mentorship Program Participation
- Education & Career Planning
- Participation in National Taskforces
- Complimentary Job Postings
- Archival Materials from Past Meetings
- Voting Rights
- Networking Opportunities
- Patient & Research Information
- Volunteer Opportunities
- Advocacy and Counsel on Critical Care Issues
- Discounts on SVIN Meeting Rates

By joining SVIN, you become part of the premier organized body of Vascular and Interventional Neurology in the world!

Visit [www.svin.org](http://www.svin.org) for details on how to join or email us at info@svin.org.

---

Apply for FSVIN!

The Society of Vascular and Interventional Neurology (SVIN) offers an elevated member status of Fellow of Society of Vascular and Interventional Neurology (FSVIN), the SVIN’s esteemed category of membership. Fellow status recognizes exceptional service and contribution to the Society, academic excellence, and leadership in the field of Vascular and Interventional Neurology. Individuals who meet the requirements of this elevated membership status will add the letters, FSVIN, to their respective titles. You may become a Fellow of Society of Vascular and Interventional Neurology (FSVIN) using one of the following routes:

- Active SVIN members may apply for the FSVIN membership if they have attended at least 3 SVIN Annual Meetings and have been a SVIN member for a minimum of 5 years. Additional criteria and application information can be found on [www.svin.org](http://www.svin.org) or provided upon request by emailing info@svin.org.

- Current FSVIN members may nominate Active members of SVIN for the fellow of SVIN status if the nominee meets the criteria outlined above and on [www.svin.org](http://www.svin.org).

- SVIN Board of Directors members are granted FSVIN membership due to their contributions of time, effort, and thoughtful leadership to the Society during their term(s) of service.

**Questions?** Please feel free to stop by the registration area where staff will be able to assist. Visit [www.svin.org](http://www.svin.org) to apply online or submit your application.
Here’s a few ways to connect with us via social media to submit a topic or start a discussion:

- Post, pin, like and share your annual meeting experience on FB
- Tweet, retweet, follow, and use #SVIN2019 on Twitter
- Invite us to your Linkedin network
- Visit the Registration Desk to learn more
- Contact the SVIN Executive office at info@svin.org to share your success story or a patient testimonial.

MT2020 Mission Thrombectomy

- A global effort to improve stroke care worldwide by increasing the rate of stroke thrombectomy for eligible patients from less than 100,000 procedures today to at least 202,000 annually by 2020 and thereby reducing global stroke, death and disability.
- Download the MT2020 mobile app and begin tracking your cases! Authorized Proxy can enter de-identified cases, track personal, local and global thrombectomy cases in real time.
- Visit the MT2020 website at: www.missionthrombectomy2020.org
- Contact info@svin.org with questions, or to find out how you or your organization can support MT2020!

MOBILE APP DOWNLOAD INSTRUCTIONS:

- Navigate your browser to mt2020.org
- Create a user account*
- Visit your app store and search for 'mt2020'
- Download the MT2020 mobile app
- Log in using the credentials set up on your browser account

*SVIN members: Use the email address affiliated with your SVIN user account for expedited verification! Email support@mt2020.org for support help.
TRIAGE TO TREATMENT
Let’s beat stroke from every angle.

We have joined forces with Viz.ai to synchronize stroke care with Artificial Intelligence.

A powerful portfolio in the fight against Acute Ischemic Stroke.

Solitaire™ X Revascularization Device

Phenom™ 21/27 Catheter

React™ 68/71 Catheter

Riptide™ Aspiration System

CAUTION: Federal (USA) law restricts these devices to sale, distribution, and use by or on order of a physician. Indications, contraindications, warnings, and instructions for use for Solitaire™ X Revascularization Device can be viewed at www.medtronic.com/manuals. Indications, contraindications, warnings, and instructions for use for all other products can be found in the product labeling supplied with each device.

Phenom™ Catheters are intended for the introduction of interventional devices and infusion of diagnostic or therapeutic agents into the neuro, peripheral, and coronary vasculature. The React™ 68 Catheter and React™ 71 Catheter are intended for the introduction of interventional devices into the peripheral and neuro vasculature. The Riptide™ Aspiration System is intended for use in the revascularization of patients with acute ischemic stroke secondary to intracranial large vessel occlusive disease within the internal carotid, middle cerebral M1 and M2 segments, basilar, and vertebral arteries within 8 hours of symptom onset. Patients who are ineligible for intravenous tissue plasminogen activator (IV t-PA) or who fail IV t-PA therapy are candidates for treatment.

AXS Catalyst® Distal Access Catheter

RX ONLY

See package insert for complete indications, complications, warnings, and instructions for use.

Indication for use as a conduit

The AXS Catalyst Distal Access Catheter is indicated for insertion into a selected blood vessel in the peripheral and neurovascular systems. The AXS Catalyst Distal Access Catheter is also indicated for use as a conduit for retrieval devices.

Indication for use as a revascularization device

The AXS Catalyst Distal Access Catheter is indicated for use in the revascularization of patients with acute ischemic stroke secondary to intracranial large vessel occlusive disease (in the internal carotid, middle cerebral – M1 and M2 segments, basilar, and vertebral arteries) within 6 hours of symptom onset. Patients who are ineligible for intravenous tissue plasminogen activator (IV-t-PAI) or who failed IV-t-PAI are candidates for treatment.

Device description when use as a revascularization device

The AXS Universal Aspiration System is composed of the following components:
- AXS Catalyst Distal Access Catheter
- AXS Universal Aspiration Tubing
- Media/Flex Pump
- AXS Universal Liner Set
- Trap

The AXS Universal Aspiration System is designed to remove thrombus from the neurovascular system using continuous aspiration. The AXS Catalyst Distal Access Catheter delivers aspiration from the Media/Flex Pump directly to the site of the occlusion to remove the clot. The AXS Catalyst Distal Access Catheter is a sterile single-lumen, variable stiffness catheter. The catheter shaft has a hydrophilic coating to reduce friction during use, includes a radiopaque marker on the distal end for angiographic visualization, and includes a hub on the proximal end allowing attachments for flushing and aspiration. It is packaged with a Rotating Hemostasis Valve (RHV), Tuohy Borst Valve with Sideport, and Peel Away introducer.

The Rotating Hemostasis Valve and Tuohy Borst Valve with sideport are used for flushing, insertion of catheters, and aspiration. The peel away introducer sheaths are designed to protect the distal tip of the catheter during insertion into the RHV or Tuohy Borst. The AXS Catalyst Distal Access Catheter is the only component of the AXS Universal Aspiration System that is used intravascularly.

AXS Universal Aspiration System

The AXS Universal Aspiration Tubing serves as a conduit to supply vacuum from the Media/Flex Pump to the distal tip of the AXS Catalyst Distal Access Catheter. The AXS Universal Aspiration Tubing provides a connection between the sterile and non-sterile environments. The proximal end of the AXS Universal Aspiration Tubing is connected to the AXS Universal Liner Set (outside of the sterile environment). The AXS Universal Liner Set is connected to the Media/Flex Pump (inside the sterile environment). The Media/Flex Pump is designed to generate vacuum for the AXS Universal Aspiration System. When used as part of the AXS Universal Aspiration System, the AXS Catalyst Distal Access Catheter requires a minimum vacuum pressure of 48 kPa (358 in Hg) from the Media/Flex Pump. Use the product prior to the “Use By” date printed on the label.

Contraindications

None known.

Adverse events

Potential adverse events associated with the use of catheters or with the endovascular procedures include, but are not limited to:
- Access site complications
- Allergic reaction
- Anemia
- Anoxygenation
- Aneurysm rupture
- Death
- Embolism: air, foreign body, plaque, thrombus
- Hemorrhage
- Infection
- Iatrogenic injury
- Neurological deficits
- Pseudoneurysm
- Stroke
- Transient Ischemic Attack
- Vascular compromise
- Vascular occlusion
- Vascular perforation
- Vessel rupture
- Vessel thrombosis

Use of device requires fluoroscopy which presents potential risks to physicians and patients associated with x-ray exposure. Possible risks include, but are not limited to, the following:
- Alopecia
- Burns ranging in severity from skin reddening to ulcers
- Cataracts
- Delayed neoplasia

Warnings for both indications

Caution: supplied STEREILE using an ethylene oxide (ETO) process. Do not use if sterile barrier is damaged. If damage is found, call your Stryker Neurovascular representative. For single use only. Do not re-use, reprocess or re-sterilize. Reuse, reprocessing or re-sterilization may compromise the structural integrity of the device and/or lead to device failure which, in turn, may result in patient injury, illness or death. Reuse, reprocessing or re-sterilization may also create a risk of contamination of the device and/or cause patient infection. To prevent transmission of infection/disease from one patient to another. Contamination of the device may lead to injury, illness or death of the patient. After use, dispose of product and packaging in accordance with hospital, administrative and/or local government policy.

• Limited testing has been performed with solutions such as contrast media, and saline. The use of these catheters for delivery of solutions other than the types that have been tested for compatibility is not recommended.
• Not intended for use with power injectors.
• If flow through catheter becomes restricted, do not attempt to clear catheter lumen by inflation. Doing so may cause catheter damage or patient injury. Remove and replace catheter.
• Never advance or withdraw an intravascular device against resistance until the cause of the resistance is determined by fluoroscopy. Movement of the device against resistance could dislodge a clot, perforate a vessel wall, or damage the device.

Additional warning for revascularization indication only

• Excessive aspiration may cause patient complications.

Precautions

• Carefully inspect all devices prior to use. Verify size, length, and condition are suitable for the specific procedure. Ensure the catheter’s labeled outer diameter is smaller than the treatment vessel diameter. Do not use a device that has been damaged in any way. Damaged device may cause complications.
• To control the proper introduction, movement, positioning and removal of the catheter within the vascular system, users should employ standard clinical angiographic and fluoroscopic practices and techniques throughout the interventional procedure.
• Use the product prior to the “Use By” date printed on the label.
• To prevent thrombus formation and contrast media crystal formation, maintain a constant inflation of appropriate flush solution through catheter lumen.
• Torquing the catheter may cause damage which could result in kinking or separation of the catheter shaft.

Erlanger Consulting Services

Offering Stroke Center finances, operations, and management, as well as Stroke Center EMR database development

Erlanger Consulting Services provides expert analysis of Stroke Center finances, process flow, and management. Erlanger IT can provide software developed and field tested by our stroke physicians yielding comprehensive EMR charting and converting patient information to searchable databases.*

*Our software adapts EPIC EMR and allows for third-party databases to merge with patient clinical records. For other systems, clinical input screens can be adapted from the Erlanger EPIC Stroke Navigator.

DUAL LUMEN BALLOON CATHETER

Balt’s Access Portfolio Delivers Unique Solutions

Visit www.balt-usa.com to learn more
This online course includes:
• Basic Anatomy, Statistics, & Types of Strokes
• Risk Factors, Signs & Symptoms
• BE FAST, EMS, & Detection Scales
• Treatment Options & Methods for Improving Stroke Outcomes

To help expand the stroke treatment network, this course is geared towards:
• Physicians
• Nurses
• Emergency Medical Technicians
• First Responders
• Healthcare Workers
• Hospital Personnel
• General Public

Course Details
Price: $35 for SVIN members
      $50 for non-members
Time: Self-paced, online course, approx. 1.5-2 hours
Accreditation: 1.5 ACCME, ANCC, CAPCE

If you have questions, please contact Delaney Hogan-Bakke at education@svin.org
Current stroke education and the understanding of stroke scales and regional protocols is paramount for the improved outcomes of stroke patients.

Grow your stroke skills for use in the field!

This course will expand your knowledge on:
- Types of Stroke & Risk Factors
- Prehospital Triage
- Stroke Detection Scales
- Warning Signs & Symptom
- Stroke Severity Scales
- Treatment Options
- Bypass & Transfer Protocols

To help increase the stroke treatment network, this course is appropriate for:
- First Responders
- Emergency Medical Technicians
- Fire Fighters
- Police Officers
- Paramedics
- Nurses
- Physicians

Course Details

Price: $50 for SVIN members
       $75 for non-members

Time: Self-paced course, approximately 2.5 hours

Certification: 2-year ASES certification of completion

Accreditation: 2.5 ACCME, ANCC, CAPCE

Access online course at svin.org

For questions, please contact Delaney Hogan-Bakke at education@svin.org

EMS is the first line of care for stroke patients.
Expand your knowledge to improve outcomes

Current stroke education and the understanding of stroke scales and regional protocols is paramount for the improved outcomes of stroke patients.

Grow your stroke skills for use in the emergency department!

This online course includes:
- Risk & Benefits of IV Alteplase
- Transfer Algorithms
- Data on TPA
- Stroke Mechanisms

To help increase stroke network, this course is appropriate for:
- Physicians
- Nurses
- Emergency Department personnel

Access online course and learn more at svin.org

Course Details:
Price: $50 for SVIN members
       $75 for non-members
Time: Self-paced course, approximately 2.5 hours
Certification: 2-year ASES certification of competition
Accreditation: 2.5 ACCME, ANCC, CAPCE
Group Pricing:
  10-50 courses: 15% off individual rate
  51-99 courses: 25% off individual rate
  100+ courses: 50% off individual rate

Please visit svin.org for additional information regarding the new ASES ED course or contact Delaney Hogan-Bakke at education@svin.org with questions regarding any BSES or ASES online courses or to inquire about hosting a live course at your institution.
