WHO WE ARE
The Society of Vascular and Interventional Neurology was created to achieve the highest level of care for patients through increased collaboration in scientific research and by educating young professionals and training young investigators. The Society also aims to provide opportunities to connect leaders in the field and provide a common ground for dialogue and creation of practice and safety standards. Read More
OUR MISSION
Represent the advancement of interventional neurology as a field with the ultimate goal of improving clinical care and outcomes of patients with stroke and cerebrovascular diseases. Read More
